

nita

Nita's products are meant to preserve the inherent qualities and imperfections of the given materials. All the products are hand made with this philosophy in mind. Products may come with natural finishes, exposed elements and unlaquered. Whilst we strive to have our products leave in pristine condition, these may arrive with minor oxidation marks. All our products are represented in such a way to insure product finishes and colors are accurate. Nicolo Taliani Ltd reserves the right to alter these details without notice, in compliance with its own product needs, manufacturing changes in response to current market needs. Color swatches are for reference only, Nicolo Taliani Ltd cannot guarantee exact color match for any product finishes.

All designs are protected under copyright law. Nicolo Taliani Ltd holds the exclusive manufacturing and distribution rights worldwide. Copying will be prosecuted.

All light fixtures in this catalogue have CE marking compliance.

Tube SL, 2019

Evolving Nita's ongoing exploration of light, the Tube suspension light showcases Borosilicate glass tubes typically found in heavy industrial chemical plants. Each conceals a transparent, curved PMMA rod wrapped in cellophane that captures, traps and refracts light, rendering visible the source's LED rays. The resulting sculptural fixtures elegantly illuminate their surroundings at the same time they adapt and react to their environment. Each tube is fitted with two dimmers, one for each light source.

Tube SL, 2019

Borosilicate glass tube

Brass flange

PMMA & cellophane diffusor

Black PVC electrical cord (min 2m * 4.5m)Black PVC electrical cord (min 2m * 4.5m)

Product Description

Providing a warm diffused light, this architectural fixture features a PMMA diffusor rod inside a 2m borosilicate glass tube. The lighting devices are placed within the brass flange caps. The light's visually elegant luminescence and transparency interacts with its surroundings, creating a uniquely sculptural moment, offering a distinctive impact within any space.

Product Specifications

220cm h | base: 16cm h x 18cm w

Weight:10kg

Handcrafted in Italy

Bulb Specifications

Input voltage: 110 / 240V

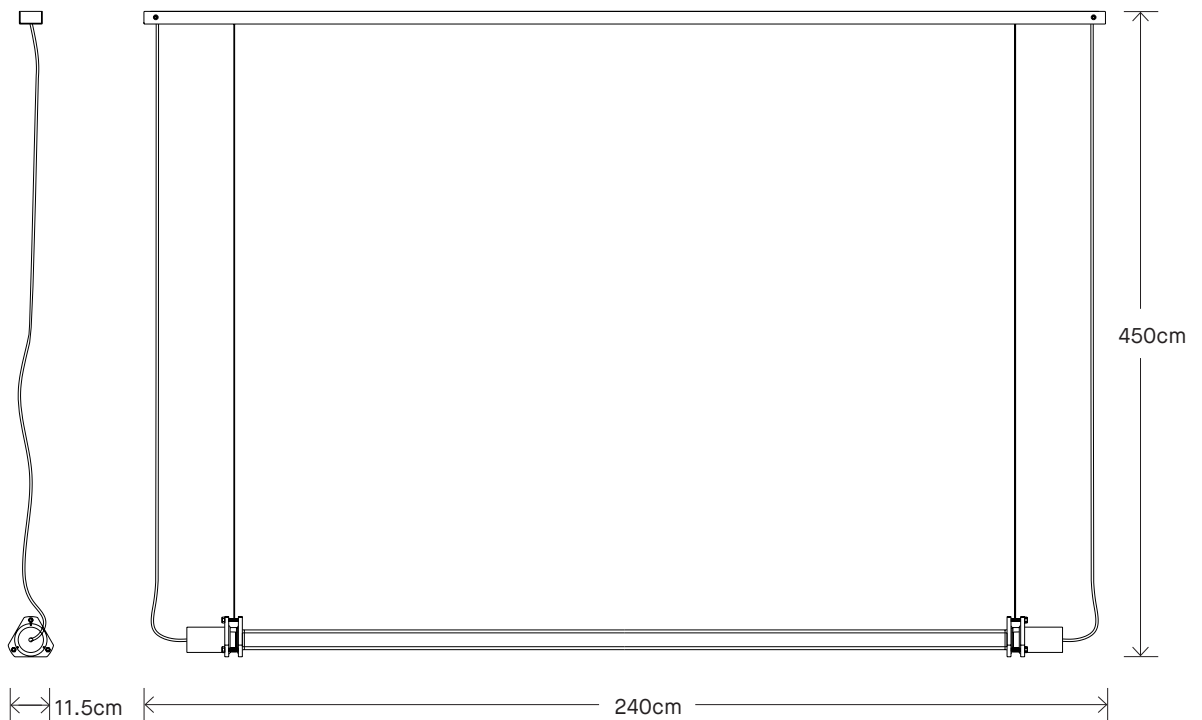

Source: 2 x 17.5W LED Dimmable (2700k)

Certification: CE, UL conform

Due to the hand made nature of this object, small imperfections in glass finish or cellophane wrapping may be possible.

Cleaning Instructions

Before cleaning, light fixtures must be turned off and unplugged from the mains electricity. Light bulb must be unscrewed. Whilst cleaning please be extremely careful. Use a damp cloth or window cleaning product. Make sure the product is completely dry before switching the electricity on.
